

WALLACE HALL FINE ARTS CENTER – GADSDEN STATE COMMUNITY COLLEGE LINESSET SCHEDULE

IMPORTANT:

Our fly system is a poorly designed single purchase counterweight system. While the grid is 60', the high trim of most of the battens is between 35' and 37' due to a poor redesign in late 1990's. As a result of this reconfiguration, the loading bridge is much too high for normal use. We strongly recommend that users do not attempt to fly scenery or equipment that cannot be raised by hand by two or three stagehands on the fly rail (and subsequently weighted properly). Please call us well in advance of your event to discuss this further. For shows with multiple large backdrops, we suggest using a smaller number of drops, or changing them at intermission. The eventual plan is to replace the existing system with a Vortek motorized system with high trims of 58'. In the meantime, we need to raise \$700k.

Lineset #	Description	Distance from Plaster Line
0	FIRE CURTAIN	2"
1	GRAND BORDER	1'4"
2	GRAND CURTAIN	1'11"
3	SPARE	3'
4	1ST ELECTRIC	4'3"
5	SPARE	5'10"
6	SPARE	6'7"
7	SPARE	7'3"
8	1ST BORDER	7'10"
9	1ST TRAVELER (CONCERT CURTAIN)	8'5"
10	PROJECTION SCREEN	9'5"
11	SPARE	10'2"
	VERTICAL SUPPORT COLUMN ON GRID	
12	SPARE	10'11"
13	2ND ELECTRIC	11'11"
14	SPARE	12'10"
15	SPARE	13'5"
16	SPARE	14'
17	2ND BORDER	14'6"
18	2ND TRAVELER (CONCERT CURTAIN)	15'8"
19	SPARE	16'6"
